Rotary Club young snappers capture the community

ST. AUSTELL BAY ROTARY CLUB

Entrants and winners of the St Austell Bay Rotary Club Annual Young Photographer competition. L-R, front row, some of the 21 entrants; Katie Walker, Ellen Holmes, Ella Cook (highly commended), Alice Eade (winner), and Ben Wibley; back row, Derek Godridge (Rotary District Officer and event organiser), Mike Gill (Youth Opportunities Officer, St Austell Bay Rotary), Dave Bridges (judge and president of St Austell Bay Rotary), Linda Fenner (judge).

ST AUSTELL Bay Rotary Club organised and held the 2nd Rotary Annual Young Photographer competition on Thursday 20th January at Leek Seed Hall, St Bloszy Gate.

Those who attended were pupils, teachers, family and friends from Biscovey, Carclaze, Mount Charles and St Mewan Junior Schools, together with members of the St Austell Bay Rotary Club who organised refreshments for the evening.

The theme of the competition this year was 'Community Spirit', with a portfolio of four images per entrant. Judging the entrants was experienced photographers Dave Bridges (who is also president of the club), Linda Fenner and local photojournalist Peter Glaser - all three being members of the Wadebridge Camera Club. In

announcing the winner Dave Bridges commented on the high standard of entries, with each portfolio capturing the theme in various interesting ways. The winner was Alice Eade from Mount Charles School, St Austell. Her entry, taken on a recent present of a Fuji film compact camera, captured the essence of community spirit on Boxing Day with a series of photographs of the annual sponsored dip in the sea by harry folk raising funds for charity.

For more information please contact Mike Gill, Youth Opportunities Officer, Rotary Club of St Austell Bay, on 01726 813273 or 07747 182706.

St Austell based Alice Eade (age 10), who attends Mount Charles County Primary School, with a photo selected from her portfolio of four images about the annual Boxing Day sponsored dip in the sea at Charlestown, taken on her Fuji film compact camera, receiving her cup from Rotary District Officer and event organiser Derek Godridge from Penryn.

FREE SOLAR PANELS ARE NOT SUCH A GREAT DEAL

Buying your own panels could save a staggering £28,000*

FREE SOLAR PANELS but is it such a great deal?

Free solar panels are all the rage at the moment, with several companies offering consumers the opportunity to 'rent out' their roofs in exchange for free electricity.

New research has found consumers could save an extra £28,000 over the next 25 years by buying their own solar panels (PV) system instead of signing up to a scheme offering 'free' solar panels.

F & K Ltd specialise in solar energy systems for domestic and commercial properties. All installations are fully accredited under the Energy Saving Trust's Microgeneration Certification Scheme (MCS).
